Baumüller & Partner  
GmbH

Kailong High Technology  
Co. Ltd.

Johnson Matthey

Johnson Matthey GmbH

Krone Filtertechnik  
GmbH

TÜV SÜD AG / TÜV  
Technische Überwachung

Starfilter Systems Pte.  
Ltd.

E&D Corporate Ltd.

## ○ Chance of the todays Agenda

- 11:15 Wirkung der Umweltzone Leipzig auf die strassennahe Luftqualität  
G. Löschau SMUL Dresden  
  
-> shift to 11:00
- 11:00 - 11:15  
Real world emissions – Methodology and results  
*R. Mathies, TÜV Süd*

Will be substituted by

- Direct NH<sub>3</sub>-SCR:  
High DeNO<sub>x</sub> efficiency at low exhaust temperature  
*Dr. Tue Johannessen, Amminex*

*starting at 11:15*

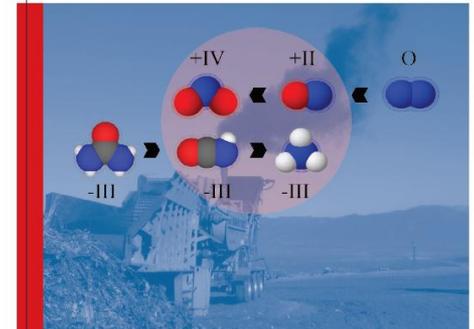

Empa  
Akademie

7<sup>th</sup> VERT FORUM

### Filter and deNO<sub>x</sub>-technologies

Efficient for both, diesel and  
gasoline direct injection vehicles

Empa, Dübendorf, Überlandstrasse 129  
Friday, March 18, 2016, from 9:00 to 17:00

Registration by e-mail: [ttm.a.mayer@bluewin.ch](mailto:ttm.a.mayer@bluewin.ch)

## ○ So that the air is good for breathing

*The modern world is characterised by urbanisation and mobility, which in turn presuppose industrialisation. With increasing industrialisation, however, pollutant emissions have risen rapidly too. The emission of fine particles from combustion engines in particular is of great concern due to the impact this has on mortality and morbidity in urban populations and its excessively high contribution to atmospheric warming.*

*This film provides information on highly efficient VERT<sup>®</sup> particle filter systems that eliminate these dangerous particles along with countless other pollutants.*

*The following languages can be selected:*

*English - German - Italian - Spanish - Persian - Mandarin*

«So that the air is good for breathing»
